Trade Price List

Engros Verzeichnis

A circular logo with a double-lined border. Inside the border, the words "TREE", "AND", "SHRUB", "SEEDS", "ROOTS", and "BULBS" are stacked vertically in a bold, sans-serif font. The entire logo is set against a background of a dense, hatched wreath of two trees, one on each side.

1905-1906

PLEASE READ CAREFULLY BEFORE ORDERING.

The publication of this list cancels all previous quotations.

TERMS—Cash with order or usual trade references from unknown correspondents. All accounts become due and subject to draft, unless otherwise arranged, 60 days from date of invoice. Two per cent. discount for remittances within 30 days from date of invoice.

DOMESTIC REMITTANCES requested by Postal or Express Money Order, Registered Letter or Draft on New York or Atlanta Bank. Our banks charge for collection of local checks.

FOREIGN REMITTANCES are payable in United States currency through Money Order on Atlanta Postoffice or Draft on a New York or Atlanta Bank. We ask that remittances not be made in foreign postage stamps or foreign individual checks.

POSTAGE—The rate is 8c per pound, which ought to be added to remittance. Limit of weight in domestic mail is four pounds, and in foreign mail twelve ounces. Registration fee in all instances 8c per package.

PARCELPOST packages are admitted to a number of foreign countries now. Limit of weight per parcel is four pounds six ounces, and the rate is twelve cents per pound or fraction thereof.

FREIGHT AND EXPRESS—Unless instructed we shall use our own discretion as to kind of conveyance or route. Nearly all express companies allow now a deduction of twenty per cent. from regular merchandise rates for shipment of seeds and roots. All goods sent by freight travel at risk of consignee.

FOREIGN SHIPMENTS will be consigned to Downing's Foreign Express, 32 Broadway, New York, or their correspondents at other ports, unless we receive other instructions.

MARINE INSURANCE will be effected at request and expense of consignee.

REQUEST FOR EARLY ORDERS—We do not sell any old seeds and do not take in stock, therefore, much larger quantities than we can be reasonably sure of selling during the ensuing season. It is very important on this account, especially, that orders for large quantities of early maturing kinds, should reach us as early as possible in the season to assure complete execution. While we anticipate at this writing a supply of all kinds offered, our acceptance of orders is not a warranty for delivery, but it is subject to crop accidents and limits of crops. All quotations are subject to change without notice.

WARRANTY—While we exercise greatest care to have all our seeds, bulbs, plants, etc. pure and reliable, they are sold without warranty and without any responsibility, expressed or implied, in respect to the crop. If our goods are not accepted on these terms we must be informed at once after their inspection upon arrival at destination to arrange for their return. We cannot consider deferred claims or claims after the seeds have been planted.

An exchange of catalogs, seed lists, etc., is desired.

OTTO KATZENSTEIN.
OSCAR FALK.

GESCHAEFTSBEDINGUNGEN.

Nach Erscheinen dieses Katalogs sind alle früheren Preisnotierungen ungültig.

ZIEL—Gäste mit Auftrag, oder per Nachnahme durch unsere Spediteure. Falls Eröffnung eines Konto erwünscht, ersuchen wir, wie neblich, um Handelsreferenzen. Fakturen fuer Buchkonten sind 60 Tage nach Ausstellung zahlbar. Fuer Ausgleichung von Buchkonten innerhalb 30 Tagen erhalten wir two per cent Skonto.

ZAHLUNGEN sind in U. S. Währung durch Postanweisung auf Atlanta, Ga., oder durch Tratte auf eine New Yorker oder Atlanta Bank zu machen. Wir ersuchen keine ausländischen Briefmarken oder Privatcheques zu senden.

PORTO fuer Mustersendungen ist 25 Pfg fuer Maximumgewicht von 350 g. Einzelpreisbegehr fuer jedes Stueck ist 35 Pfg.

POSTPACKETE nach Deutschland sind bis zu 2 kg Maximumgewicht zulässig und das Porto betraegt Mark 1.25 per kg.

FRACHT—Wir consignieren alle Fracht-sendungen zu unseren Spediteuren Downing's Foreign Express, 32 Broadway, New York, oder deren Correspondenten in andern Häfen, falls wir nicht andere Direktionen erhalten. Fracht-sendungen laufen auf Rechnung und Gefahr des Empfängers und wir besorgen Seeassecuranz auf Wunsch.

FRUERZETIGE AUFTRÄGE sind ganz besonders erwünscht weil wir nur frische Samen auf Lager halten und nur in solchen Quantitäten als wir im Laufe der Saison zu verkaufen hoffen. Es ist deshalb sehr wichtig, dass uns Aufträge, namentlich fuer grössere Quantitäten frischreifender Samen so frisch als möglich erreichen. Wir erwarten Samen aller offerierten Arten aber Accept of Aufträge ist keine Garantie fuer Lieferung, weil dieselbe stets von Ernteauffall abhängig ist. Wir reservieren das Recht, unsere Preise ohne weitere Mitteilung zu ändern.

Es ist jederzeit unser eifrigstes Bestreben, unseren Kunden nur zuverlässige Ware in bester Qualität zu liefern. Das Ergebnis der Aussat hängt aber außer von der Beschaffenheit der Samen von sovielen andern Zufälligkeiten unserer Kontrolle ab, dass wir jede Verantwortung oder Garantie fuer den Ausfall der Ernte aus den von uns gelieferten Samen etc., ausdrücklich ablehnen müssen. Wir sind jedoch willig, Sendungen, die unsern Angeboten nicht entsprechen, zurückzunehmen ebenso wie wir zur Rueckzahlung bis zur Höhe des uns fuer die Waaren gezahlten Betrages bereit sind. Reklamationen müssen sofort nach Eingang der Ware gemacht werden, um berücksichtigt zu werden. Wir sind stets willig, alle Unregelmässigkeiten auf das entgegenkommendste zu regulieren und ersuchen um Mitteilung in allen solchen Fällen.

Wir waaren fuer Zusendung von Baumschule- oder Samenkatalogen sehr verbindlich.

Amerikanischer Koniferen,
Gehoelze, Palmen, Kakteen
und Stauden Sowie Ueber
Stauden und Blumenzwiebeln

1905 - 1906.

This list is intended only for the trade and others entitled to wholesale prices. We issue a beautifully illustrated descriptive catalogue, which contains a wealth of information. Please ask for it.

Dieses Engrosverzeichnis is nur fuer den Handel bestimmt. Wir veroeffentlichen einen reichillustrierten beschreibenden Katalog (in Englisch) der eine Fuelle wertvoller Information enthaelt. Wir senden denselben mit Vergnuegen kostenfrei auf Wunsch.

We wish to take this opportunity to thank our many customers for the very liberal response to our first offer in 1904. We shall continue to show our appreciation by using every effort to please by our thorough, prompt and conscientious service. We hope that our old friends will stay with us, and those whom this list reaches for the first time will test our capacity by favoring us at least with a trial order.

Wir nehmen gern diese Gelegenheit unsrer vielen Kunden fuer das uns in Vorjahren in so schmeichelhafter Weise geschenkte Vertrauen zu danken. Wir werden uns bemuehen, uns dasselbe durch prompte und gewissenhafteste Ausfuehrung aller Auftraege auch in Zukunft zu erhalten. Wir hoffen auch in diesen Jahren mit Auftraegen von allen unsrer alten Freunden beelegt zu werden und wuerden Allen, denen dies Verzeichnis zum ersten Male zugeht, danken, wenn sie uns mit einem Probeauftrag versuchen wuerden.

Note the many greatly reduced prices.

Wir machen auf die vielen, bedeutenden Preisreduktionen aufmerksam.

PRIVATE CABLE CODE.

The Code and Cipher Herein Printed
Annul All Previous Published.

Der Hier Gedruckte Code Annulliert
Alle Frueher Veröffentlichten.

For the convenience and saving of cable tolls for our customers we have given a cipher to the names of the conifers, trees and shrubs offered. We further give a cipher to state weights from $\frac{1}{8}$ ounce to 5000 pounds. We also give a number of code words for sentences most generally used. We hope that this will prove a means for establishing and increasing pleasant relations.

Instructions: Where one of the first four ciphers following here is used, combine them with ciphers for weight and name to one word.

Prices follow in figures.

Code words and ciphers for names are combined into one word.

Zur Bequemlichkeit und un unsern Kunden Depeschenkosten zu ermaessigen, haben wir den in folgender Liste angefuehrten Coniferen-und Gehoelzsamen Codeworte beigefuegt. Wir geben weiter Codeworte fuer Gewichte von 20 g bis 5000 kg.

Wir lassen weiter eine Anzahl Codeworte fuer die hauptsaechlich benutzten Phrasen folgen und hoffen, dass dies zur Einleitung und Erweiterung angenehmer Beziehungen dienen wird.

Instructionen: Falls eines der ersten vier Codeworte sowie Namen der Samen und Gewicht benutzt wird, verbinde man die drei zu einem Worte.

Preise folgen in Zahlen.

Codeworte fuer Phrasen und Namen werden zu einem Worte vereinigt.

KILOGRAMM

Wichtig. Um Gewichte in Kilo auszudruecken, beginne man die Worte fuer Pfund anstatt mit Z mit K. Z. B. 1 Pfund Zaba=1 Kilo-Kaba. 20g-Gaff; 100g-Gapi; 250g-Garn; 500g-Gawn; 750g-Geni.

CONIFERS—KONIFEREN.

ABOUT SOWING SEEDS OF CONIFERS AND WOODY PLANTS.

Sow small quantities in cold frames or in shallow boxes filled with carefully sifted mellow sandy loam. Larger quantities sow in seed-beds which must be naturally or artificially sheltered from heavy East or Northeast winds. Enrich soil with well rotted manure. Work the soil—a well-drained sandy loam—thoroughly to a depth of twelve inches, removing sticks, stones, etc. Destroy weeds before sowing and avoid subsequent annoyance. Seed beds can be used for a number of years.

Seeds with hard shells soak in almost boiling water just before sowing.

Seeds with thick pulp (as *Magnolia*) macerate and wash off pulp immediately before sowing.

Seeds which naturally dry up or which "lay over" stratify by placing them in boxes or other vessels between alternate layers of sand, storing them in sheltered places out of the way of mice and other vermin. In due time, sow like any other seeds. Keep stratified seeds moist. Sow broadcast or in drills. Last is preferable as facilitating cultivation. Cover seeds with soil equal to about the thickness of the seeds. Do not cover seeds too deep, especially not those of conifers; light mulch of seed beds with moss, pine needles or similar material, assists in retaining even moisture. After sowing press soil firmly with roller or back of spade and water thoroughly with fine rose. Shade seed-beds until seedlings appear when shade must be removed gradually. Keep beds well weeded at all times.

To prevent dampening off sprinkle pulverized charcoal over and between the seedlings.

Half ounce, quarter pound, 25 lbs. rates at ounce, pound, and hundred pound rates respectively. No seeds invoiced for less than 10 cents. Quotations on larger lots than listed by letter.

*(Asterisk) means hardy. *(Sternchen) bedeutet winterhart.

WINKE FUER DIE AUSSAAT VON KONIFEREN & GEHOELZEN.

Kleine Quantitaeten und seltene Samen saet man in kalte Mistbeet-kaesten, wohldrainierte flache Holzkaestchen, Samenschaalen, etc. Groesere Aussaaten werden in Samenbeete gemacht, die gegen heftige Ost- oder Nordostwinde natuerlich oder kuenstlich zu schuetzen sind. Man waeche humusreichen, sandigen Lehmboden, der durch wohlverrotteten Stallduenger verbessert wird. Man rigole tief und entferne sorgfaetig Steine, Stoecke, etc., ebenso wie unbedingt auch alle Unkrautwurzeln vor der Aussaat. Gut vorbereitete Samenbeete koennen jahrelang erfolgreich benutzt werden.

Hartschalige Samen weicht man unmittelbar vor der Aussaat in sehr heissem, fast kochendem Wasser und beschleunigt dadurch das Auflaufen.

Samen mit fleischiger Huelle (wie *Magnolia*) weicht man unmittelbar vor der Aussaat und waescht die Samen frei.

Samen welche soust austrocknen oder welche "ueberliegen" stratifiziert man, indem man sie schichtenweise mit feuchtem Sand in Kaesten oder andere Gefaesse packt und sie in geschuetzten Plaetzen, fern von Maeusen und aehnlichem Ungeziefer, bis zur Aussaat aufbewahrt. Man haelt sie nur maessig feucht und saet spaeter wie andere Samen.

Man saet entweder breitwuerfig oder in Reihen. Reihensaat erleichtert indessen Kultivierung. Man bedeckt die Samen nach der Aussaat mit einer duennen Schicht leichter Erde. Koniferen namentlich bedecke man sehr leicht und andere Samen nur bis zu ihrer eignen Dicke. Man presst die Erde dann fest und waessert sehr sorgfaeltig. Es ist ratsam, das Beet mit leichter Schicht Moos, Tannennadeln, Lohe, etc. zu bedecken, um gleichmaessige Feuchtigkeit zu erhalten. Man schattiere Saatbeete bis die Saemlinge auflaufen, wenn das Schattiermaterial ganz allmaehlig entfernt wird. Man halte die Saat beete durchaus unkrautfrei. Um Umfallen von Saemlingen durch Faeulnis am Wurzelhals zu verhindern, ist das Ausstreuen von pulverisierter Holzkohle ueber und zwischen Saemlingen oft sehr erfolgreich.

10 g zu 20 g Preisen; 125 g zu kg Preisen; 25 kg zu 100 kg Preisen. Anstellungen fuer groessere Posten werden mit Vergnuegen in direkter Korrespondenz gemacht. Keine Samen werden fuer weniger als 30 Pfg. in Rechnung gestellt.

TREES AND SHRUBS. GEHOELZE.

For Hints about sowing see under Conifers.

Fuer Winke betreffs Aussaat siehe unter Koniferen.

Half-ounce, quarter-pound, 25 pounds at ounce, pound and hundred pounds rates, respectively. No seeds invoiced at less than 10 cents. Prices for large quantities will be quoted by letter upon application.

125 g, resp. 25 kg zu 1 resp. 100 kg Preisen. Keine Samen werden unter 30 Pfg in Rechnung gestellt. Wir machen mit Vergnuegen Anstellungen fuer groessere Posten auf Anfrage in Korrespondenz.

We are using the following abbreviations. Wir benutzen die folgenden Zeichen:

e means evergreen—bedeutet immergruen.

d means deciduous—bedeutet laubabwerfend.

t means tree—bedeutet Baum.

s means shrub—bedeutet Strauch.

v means vine or climber—bedeutet Schlingpflanze.

Example: et stands for evergreen tree.—z. B.—immergruener Baum.

c near price column means that seed will be furnished cleaned, free from hull.

c vor den Preisen bedeutet, gereinigter Samen, frei von Huellen.

db near price column means delivery of seed in natural hull, dried berries, etc.

db vor den Preisen bedeutet, Samen in natuerlicher Huelle, getrocknete Beeren, etc.

*(Asterisk) hardy. *(Sternchen) winterhart.

SUCCULENTS.

All kinds offered here are very easily grown from seed and we suggest a trial order. The list given is but very limited because the conditions of the crops of many kinds are quite uncertain at this writing. We expect to receive a very interesting collection later on in the season and shall gladly make lowest prices then upon inquiry.

Die hier offerierten Arten lassen sich sehr leicht aus Samen ziehen, und wir empfehlen einen Probeauftrag. Wir erwarten weitere Offerten nach Eingang der Ernten machen zu koennen und ersuchen um Anfrage von Interessenten. Wir koennen auch Pflanzen preiswert beschaffen.

PALMS—PALMEN.

The following very limited list will be supplemented as the outcome of the crops becomes a certainty and we shall gladly quote on any lists of requirements sent us. We can also supply seeds of any foreign palms, such as Arecas, Kentias, etc., at lowest prices, and solicit correspondence.

Orders for Palm seeds will be filled immediately after ripening of crops.

Wir stehen mit weitern Offerten nach Eingang der Ernten gern zur Verfuegung und machen Anstellungen auf gefl. Anfrage. Auftraege werden sofort nach Reife der Samen ausgefuehrt. Samen auslaendischer Palmen koennen stets preiswert abgegeben werden und Korrespondenz ist willkommen.

Try some seeds or plants of the
Cornflower Aster

Versuchen Sie doch Samen oder
Pflanzen der Kornblumenaster

STOKESIA CYANEA

It is an excellent perennial for many
purposes.

Es ist eine ganz ausgezeichnete
Staude in jeder Beziehung.

FOR PRICES

of seed (Samen) page 42, of plants (Pflanzen) page 47.

HERBACEOUS SEEDS.

STAUDENSAMEN.

About Sowing Seeds of Herbaceous Plants: Sow in late fall or early spring either in cold frames or preferably in shallow boxes, filled with finely sifted mellow sandy loam. Press soil firmly before sowing and cover seeds with loam to their own height after sowing. Water well and carefully and do not let the soil get dry. To prevent "dampening off" sprinkle pulverized charcoal over and between the seedlings. Shade carefully. Prick off as soon as the second leaves appear. Cover seed-boxes with mulch of chopped sphagnum moss or some similar material, to retain even moisture.

Winke Zur Aussaat: Saee im Spaetherbste oder fruehe im Fruehjahr in kalte Mistbeete oder besser in flache wohldrainierte Holzkaestchen oder Samenschalen in humusreiche, lehmige Sanderde, frei von Steinen etc. Nach der Aussaat bedecke man den Samen duenn und presse die Erde gleichmaessig fest. Waessere sehr sorgfaeltig. Halte gleichmaessige Feuchtigkeit durch Bedeckung mit gehacktem Moos, Saegespaenen etc. Schattiere sorgfaeltig. Pickiere nach Erscheinen der zweiten Blaettchen. Streue pulverisierte Holzkohle ueber und zwischen Saemlinge, um Stengelfaeule zu verhueten.

Quarter-ounce resp. quarter pound at ounce resp. pound rates.

10 g. und 125 g zu 20 g resp. kg Preisen.

12 10-cent (40 Pfg) packets at \$1.00 (Mark 4.00) postpaid (franko).

ROOTS AND BULBS.

STAUDEN UND BLUMENZWIEBELN.

Most of the items listed here will have to be collected and early orders are very desirable therefore. Delivery will be made as soon as the plants are ready for shipment. We shall at all times be glad to quote by letter on other American plants or on larger quantities of those listed here, and solicit correspondence.

Die meisten der hier aufgefuehrten Arten werden auf Bestellung gesammelt und es ist deshalb sehr wichtig, dass Auftraege uns so fruehe als moeglich erreichen. Wir machen Absendung sobald die Pflanzen versandfertig sind. Wir machen gern briefliche Anstellung fuer andere Amerikanische Pflanzen etc. oder fuer groessere Quantitaeten der hier gegebenen Arten und ersuchen um Anfrage.

It is our pleasure to state that there will be this year again a fair crop of

Wir nehmen besonderes Vergnuegen, Ihnen mitzuteilen, dass wir wieder eine Ernte von

ABIES ARIZONICA

which will be controlled by us exclusively.

We anticipate a very lively demand for this seed and as all orders will be executed in strict rotation we hope to be favored with your commands at your early convenience.

erwarten und dass wir den Samen dieser herrlichen Konifere ausschliesslich kontrollieren. Wir erwarten eine sehr lebhafte Nachfrage dafuer und da wir alle Auftraege in der Folge des Einlaufes ausfuehren, hoffen wir recht bald mit Ihrer Bestellung beehrt zu werden.

See page 6 for prices.

RHODODENDRON CATAWBIENSE.

The Rose Laurel is undisputedly the choicest of all American Laurels and it is found in only a restricted section limited to the highest summits of the Southern Alleghanies, from North Carolina to Tennessee, where our extensive fields are located.

The gorgeous flowers of this species appear on large trusses and are of shades of exquisite lighter or darker pink. The foliage is large, deep-green and persistent. The plants are at least as hardy as *Rhododendron maximum*. Their value for ornamental planting is unsurpassed. The superiority of the *true Rhododendron catawbiense*, as a parent for hybridizing purposes over the so-called *catawbiense*, so often offered in Europe under that name, which in reality are generally hybrids with *ponticum* or *arborescens* blood, is also to be considered very carefully.

We collect our plants from open woods where they grow under light shade in good loamy and fairly gravelly soil, which is wonderfully inducive to the formation of a system of fine roots, holding a solid ball of earth.

We take a special pride in our way of selecting, digging and transporting these plants and from the letters of commendation before us it seems evident that we know how to please our customers.

RHODODENDRON MAXIMUM.

Our supply of this, now so universally used and admirable evergreen, comes from the fields in the Northern Alleghanies in Pennsylvania, etc. We restrict our output to the very finest grades only, which are sure to give pleasing results. The plants are well rooted with good balls of earth and they have fine bushy tops with foliage to the ground.

KALMIA LATIFOLIA.

We supply these beautiful shrubs either from our Northern or Southern reservations. The plants are perfectly shaped in every way, have deep green foliage and are generally covered with buds. The roots hold a substantial ball of earth.

IN GENERAL.

We can supply selected plants of all these kinds in sizes from six inches up to six feet and even taller, and in quantities from a single half dozen specimens to any number of carloads. The prices will largely depend upon the quantities and sizes required, but they will be found very reasonable in all instances, especially if the superior grade is considered, which we ship. We shall gladly give all information relating to prices, approximate capacity of cars, freight rates, planting instructions or whatever else may be of interest to intending purchasers, and we cheerfully solicit correspondence.

ORNAMENTAL NURSERY STOCK.

We are growing a good line of fine, hardy woody plants and shall with pleasure send our Wholesale offer to all wholesale consumers, upon request.
